III. Update, Vega Discover and test site

Coulter (PrairieCat) stated that we have our test site up and running. There are still some consortia components that are not yet developed. Synthetics Unbound does not appear on the test site. Coulter suggested visiting Central Arkansas Library's live site to see Synthetics Unbound.

Coulter walked through the test site for the Committee.

- IV. Update, Vega development partnership with Innovative/patron engagement
Coulter (PrairieCat) said PrairieCat is still working with Innovative on our development partnership. They seem to be responsive to our feedback. One area we have been working on is notices and how they are handled. The hope is they can create some flexibility for us.

- V. Update, PrairieCat Plus discussions with Resource Sharing Committee
Coulter discussed the Resource Sharing Summit and how the Resource Sharing Committee has come up with PrairieCat Plus. PrairieCat Plus is defined as a suite of additional services available to member libraries that allows participating libraries to provide enhanced services to their patrons. Members can pick and choose the categories that work best for them. Coulter listed the different categories: Physical Materials, Marketing and Engagement Tools, Digital Materials, Research Tools and Consulting Services. Any of the members of this committee that would like to be included on the Basecamp discussion boards, please let us know and we can get you added.

- VI. Any other topics to discuss?
No other topics were mentioned.

- VII. Adjournment
